

## Contents

<b>1 Skills and Processes of Chemistry</b> .....	1
1.1 Staying Safe Around Matter .....	2
1.2 Laboratory and Reporting Skills .....	16
1.3 Measuring and Recording Significant Data .....	31
1.4 Analysis of Units and Conversions in Chemistry .....	44
<b>2 A Closer Look at Matter</b> .....	XXX
2.1 Early Models of the Atom — Dalton to Rutherford .....	XXX
2.2 Quantum Theory and the Bohr Model of the Atom .....	XXX
2.3 Beyond Bohr — The Quantum Mechanical Model of the Atom .....	XXX
2.4 Applying Quantum Mechanics to Electrons in Atoms .....	XXX
<b>3 The Nature of Matter</b> .....	XXX
3.1 Properties of Matter .....	XXX
3.2 The Classification of Matter .....	XXX
3.3 Separating the Substances of a Mixture .....	XXX
3.4 Names and Formulae of Inorganic Compounds .....	XXX
<b>4 The Mole — The Central Unit of Chemistry</b> .....	XXX
4.1 Relative Atomic Mass .....	XXX
4.2 Introducing the Mole — The Central Unit of Chemistry .....	XXX
4.3 The Wheel Model of Mole Conversions .....	XXX
4.4 Molar Volume .....	XXX
4.5 Composition Analysis — Determining Formulas .....	XXX
4.6 Molar Concentration .....	XXX
<b>5 Expressing and Measuring Chemical Change</b> .....	XXX
5.1 Writing and Balancing Chemical Equations — The Magic of Chemistry .....	XXX
5.2 Classifying Chemical Changes and Predicting Products .....	XXX
5.3 Another Way to Classify — Identifying Electron Transfer .....	XXX
5.4 Energy Changes Associated with Chemical Change — Endothermicity and Exothermicity .....	XXX
5.5 Enthalpy .....	XXX
5.6 Calorimetry — The Measurement of Heat Transfer .....	XXX
5.7 Calculating with Chemical Change — Stoichiometry .....	XXX
5.8 Stoichiometry in the Real World — Excess/Limiting Amounts, Percentage Yield, and Impurities .....	XXX
<b>6 Relationships and Patterns in Chemistry</b> .....	305
6.1 The Development of the Periodic Table .....	306
6.2 Periodic Trends — Regular Changes in Elemental Properties .....	317
6.3 Spectroscopy — The Interaction of Matter and Electromagnetic Radiation .....	328
6.4 Describing Chemical Bonding .....	345
6.5 Lewis Structure Diagrams .....	357
6.6 The Shape and Behaviour of Molecules .....	372
6.7 Molecular Orbital Theory .....	400
<b>7 Solution Chemistry</b> .....	411
7.1 The Nature of Solutions .....	412
7.2 What Dissolves and What Doesn't — "Like Dissolves Like" .....	420
7.3 Dissociation Equations and Solution Conductivity .....	430
7.4 An Introduction to Titrations .....	439
<b>8 Gases</b> .....	447
8.1 The Gaseous State .....	448
8.2 The Gas Laws .....	456
8.3 Vapour and Partial Pressures .....	477
8.3 The Kinetic Molecular Theory and Real Gas Behaviour .....	490
<b>9 Organic Chemistry</b> .....	505
9.1 Simple Hydrocarbons and Isomerism .....	506
9.2 Functional Groups .....	520
9.3 Reactions of Organic Molecules .....	532
<b>Answers to Even-Numbered Numerical and Short-Answer Questions</b> .....	546
<b>Glossary</b> .....	561
